Message:

We learned via CFAX radio today, October 5th, that Council is discussing the elimination of burning this fall. It has been almost 1 year since we were able to burn an accumulation of forest debris on our [REDACTED] acre property.. We would appreciate it if you would consider one day to burn what has piled up . If we had advance notice of this ban happening other options could have been considered . We do not feel this change has been given fair consideration to the residents who own acreage in Langford. Will the risk of a forest fire increase with us not clearing debris every year. We believe it will..
