

## Application Checklist: Mobile Homes

**Project Address:** \_\_\_\_\_

British Columbia is the only jurisdiction in Canada that protects a person's investment in a manufactured home by having a central register of ownership details and controlling the movement of homes within BC. Under the Manufactured Home Act (previously the Mobile Home Act), no sale, transfer, or purchase of a manufactured home in BC is effective unless the transaction is registered with the Manufactured Home Registry. The registry protects a person's investment in a manufactured home by:

- Maintaining a central register of manufactured home ownership details
- Controlling the movement of manufactured homes in BC.
- Improving the security of lenders in financing purchases of manufactured homes

Note: If any alternations / additions to an existing or new mobile home are being contemplated, review with the “park” manager or owner and BC Registry the process and requirements to maintain a valid registration for the unit to comply with the municipality’s current zoning bylaws.
