---

My name is [REDACTED]

I object to this application, due to density issues, and the fact that the owner/developer new when he developed those lots the plan was for the neighbourhood.

I [REDACTED] for my lot so that I could live in the part of the neighborhood with less density.

There is little to no parking on the street and those extra houses will cause problems in that regard. The meeting notice that I received says that the proposed zoning is for one and two-family residential. I understand that none of the houses o the smaller lots are allowed 2 family residences, so this should in no way be considered.

[REDACTED]
