Mayor Steward Young and Langford Council
877 Goldstream Ave - 2nd floor
Langford, BC V9B 2X8

Dear Mayor and Council

Re: DVP21-0004 - 517 Langvista Drive

We are [redacted], and we live at [redacted].

Our concern related to DVP21-0004 is what it will mean to the street parking along Langvista drive. We have [redacted] and we have seen a significant amount of friction between neighbors due to the steady rise in street parking. I can only image what it will look like with two additional new homes at 517 Langvista, and [redacted] a new development going in.

Our request is that parking be addressed and noted as a problem and that both new developments must include sufficient parking for the size of the homes. We enjoy our home, and welcome family and friends to come and visit, but I expect that both these new developments will created overflow to the street and our friends and family will not find parking due to lack of sufficient parking considerations being address for these new subdivisions during the Development Process.

We thank you for the time and the opportunity to raise our concerns with the Development Variance Permit Process.
